VISUAL JOURNALING

Tuesday, November 10, 7:00pm

Visual Journaling is a process that involves using one's inner vision to imagine what a thought, feeling, or emotion would look like if it were expressed as color, shape, or image. It's a powerful self-healing modality that can help release stress and create balance and harmony in our body, mind, and spirit. Using guided meditations, gentle movement, and visualizations with simple art materials, Linda Cafiero will help you connect with the wisdom of your soul and rediscover your true nature. No artistic skills are necessary, just a playful spirit and willingness to explore! Check our website for recommended supplies. Class limit: 20.

Letter from the Director

Dear Residents,

We have many programs this month for you and your family to enjoy. As you browse through this newsletter, you will find programs for every age, including Family Apple Pie Making, Retro Gaming, Meditation, and Fall Storytime.

We are working hard every day to keep the Library a safe and welcoming place to visit. Please keep in mind that a face covering is required at all times for patrons and staff, and that everyone must practice social distancing. We are also quarantining materials when they are returned, disinfecting the building frequently, and providing hand sanitizer and wipes so that any common surfaces can be wiped down.

If you call and let us know what materials you want to borrow, we will have them checked out and waiting for you in the lobby for contactless pickup. If you are uncomfortable entering the building, you can call us from your vehicle and we will leave your items on the porch.

We appreciate your support and cooperation during this difficult time.

I look forward to seeing you at the Library!

Sincerely,
Dr. Roger Podell
Executive Director
